

TMS DISCOVERY DAY CAMP SUN SAFE POLICY 2023

Sunscreen at camp

Day camp in an outdoor setting requires particular attention to the effects of the sun. Our commitment to sun safety involves particular attention to parent education and staff training. We ask that parents apply sunscreen prior to campers leaving their home each day and our camp staff will schedule regular re-application at camp.

Parents are asked to send a sunscreen of their choice with their child so that our trained staff can either directly assist our campers or supervise them depending on their age and skill.

Thanks ☺
